

## EXPERIENCE

---

### **ICON PLC, Remote**

July 2021 – current

#### **Software Engineer**

- Served as Front End Lead for creating a new Study Portal application (w/ React Hooks) equipping hospitals with a dashboard to easily register patients onto available ICON clinical trials.
- Spearheaded effort to refactor user authentication and session management with the implementation of JWTs, cookies and session storage. These changes allowed secure authentication across different web domains.
- Collaborated with Back End engineers for application architecture, API design, and division of responsibilities.
- Determined timelines with PMs for new features and demoed new UIs for third party stakeholders.
- Designed, built, and tested new internal tools for record processing and the automation of new study setup.
- Technologies: React, React Hooks, Postman, GitLab, Jira, Confluence, Springboot, Java, Figma

### **ESPARK LEARNING, San Francisco, CA**

Mar 2020 - Feb 2021

#### **Software Engineer**

- Increased new teacher conversions through A/B tested UIs and Google/Clever OAuth integrations.
- Collaborated with the Marketing team to create new Rails tables for coordinating site messaging and automated lifecycle emails. With the new system, manual email template updates were no longer necessary.
- Developed new interactive progress report charts (with React Hooks and Redux) for teacher dashboards.
- Technologies: React Hooks, Elm, Ruby on Rails, Bootstrap, Elm Test, Github, GitLab, Asana, Figma

### **ASURION, San Mateo, CA**

July 2018 – Sept 2019

#### **Software Engineer – Web**

- Built and A/B tested a white label application for AT&T, Verizon, and Sprint's in-store appointment system.
- Served as Project Lead and built the page template for all of Asurion office location pages.
- Conducted code workshops for partner organizations such as Girls in STEM and KIPP schools.
- Technologies: React Hooks, React-Router, Redux, SCSS, Jest, Enzyme, Bitbucket, Jira, Invision, WordPress

### **JELLY BELLY CANDY COMPANY, Fairfield, CA**

Mar 2017 – June 2018

#### **Front End Developer**

- Rebuilt jellybelly.com into an ADA compliant website resulting in an overall WCAG 2.0 AA compliance rating.
- Enhanced product pages and order checkout flows resulting in increased order conversion rates.
- Technologies: JavaScript, HYPR, Kibo CMS, Bootstrap, Git, TortoiseSVN, Basecamp, BrightEdge, VidiEmi

### **FREELANCER, Remote**

May 2015 – Feb 2017

#### **Front End Developer / Graphic Designer**

- Designed and developed content and business assets for clients obtained through 99 Designs.
- Technologies: JavaScript, HTML, Sass, LESS, Sketch, AWS, WordPress, Photoshop, Illustrator

### **WELLS FARGO & COMPANY, San Francisco, CA**

Oct 2013 – Apr 2015

#### **QAE Regression Analyst (contract through S3)**

- Supported new services by identifying regressions and defects for a test bed consisting of 40,000+ test cases.
- Technologies: Green Hat Tester, IBM Rational ClearQuest, SharePoint Virtual Machine, XML

### **UBS FINANCIAL SERVICES, Palo Alto, CA**

July 2012 – May 2013

#### **Client Service Associate**

- Provided wealth management and estate planning services to executives and high net worth families.

## PHILANTHROPY

---

### **Push America - Journey of Hope Cyclist, Long Beach, CA - Washington, D.C**

June 2013 – Aug 2013

- Cycled from Long Beach, CA to Washington D.C. and volunteered at orgs serving the disabled community.
- Raised \$9,000 as part of the team's achievement of raising over \$500,000 on behalf of people with disabilities.

## EDUCATION

---

### **UNIVERSITY OF CALIFORNIA, BERKELEY - BA Political Economics**

Class of 2012
